ANNOUNCEMENT

When a salesman has confidence in his goods the difficulties of finding customers are largely overcome. In presenting this catalog of imported Shorthorns we feel that North American breeders are given an opportunity to make additions to established herds and for the foundation of new herds, that has seldom, if ever, been offered on any previous occasion. From the point of view of blood lines, we have never sold their equal, and as to individuality, the whole lot is much superior. Representatives of various live stock journals have made a careful inspection of the cattle, and these men know their business. Please read what they have to say in our advertising and in the gossip columns. We have placed the publicity for this sale entirely in their hands. They are not only responsible for comments but are writing the advertisements as well. Their opinion will be accepted as unbiased and will be absolutely dependable.

Pure-bred live stock prices are not so high as a few years ago. We feel, however, that breeders are justified in purchasing at present current values, and trust that this consignment will be appreciated. We do not expect any price records but hope for a sale which will help to establish confidence in the minds of all.

While agriculturists generally feel that the past year or two have not been all they would wish, many students of economic conditions do not hesitate to express the opinion that the future promises well for the tiller of the soil and especially the producer of the right quality of live stock.

The price and conditions generally throughout Canada have been considerably stabilized in the cattle industry by the removal of the embargo against Canadian cattle entering Great Britain. Commercial activity all over the North American continent has done much to restore confidence, and now is unquestionably an opportune time to replenish our stocks in anticipation of a generous reward in the very near future.

The catalog is well illustrated with untouched photographs, and it would be out of place to ask your consideration regarding any special lots. But we would like to draw your attention to the bulls. They are all young. One, a red, just 12 months old, is bred in Canada, and is a very worthy individual, from splendid ancestry on both sides, and should develop into a very dependable breeding sire. Two are dark roans, a year old in March, both bred by the late Wm. Duthie and both sired by Balcairn White Eagle, the best breeding bull owned by Mr. Duthie at the time of his last sale. Balcairn White Eagle sired the highest priced bull calf at the Collynie Sale in 1921 and his calves made an average of $7000.00. The dams of both are amongst the best at Collynie, and these young bulls should find homes at the head of the very best herds. The other bull is a light roan, bred by Jas. Cameron, Balnakyle, is a Rosewood and a show animal as well.

It is almost impossible to individualize regarding the heifers. Nearly all are calves, and so many are good ones that any remarks would be mere repetition. But six bred by the late Wm. Duthie and five by the late James Durno, comprise a very attractive lot in themselves. It is not likely that many more animals bred by either of the above men will ever be offered for sale again, and were it not for the very modest financial circumstances of the contributors they would not now be sold.

Kindly accept this as an invitation to be with us on May 30th. We will appreciate your presence, and if you are interested in Shorthorns we trust that the day spent here will not be regretted.

BALNAKYLE RASCAL is a rare good individual, looks like making a real show bull, one that would be hard to beat in the best company. He springs from a noted line of ancestry on his dam's side and the top crosses on the side of the sire are amongst some of the best in use in Britain for years.

DOUNE AURORA (162832), an Augusta, one of the promising two year old bulls seen in Ross-shire, 1922, and if Balnakyle Rascal and one heifer calf in our 1922 importation are a fair sample, he is destined to be known as an outstanding sire. Sire, Eclipse of Collynie (136344), dam Doune Augusta 3rd by Dunglass Brilliant (120003), g. dam Doune Augusta 3rd by Diamond Earl (98591).

COLLYNIE REGAL LAVENDER (114770), sire, Adbolton Regal King (107586), dam Sittyton Lavender 17th by Vanguard (97521), g. dam Sittyon Lavender 11th by Scottish Fancy (75601).

Fairlawn Comet is one of the best young bulls of the year. He is all that the most careful breeder could ask in a bull to breed from, for he is made right and he is bred right. This is a particularly good pedigree from every standpoint, for the breeding is fashionable and the animals on both sides have been of great merit.

FAIRLAWN BEADSMAN (Imp.) =138730=, a well bred Cruickshank Secret, got by the great breeding bull Collynie Knight Victor (119550), a son of Knight of Collynie (112229), bred and used with such great success by Duthie; dam Sittyton Surprise by Pride of Day (79597), g. dam Sittyon Sarcasm by Gravesend (46461).

COLLYNIE ELIZA 2nd (Imp.) is a rare proposition as an addition to a high class breeding herd. Hers is a combination of breeding which has produced some of Scotland's best Shorthorns.

The Eliza's are a family that have been very carefully bred for many generations, and in this particular strain of them no flaw can be traced in a long line of sires. Apart from the individual merit of each animal, this pedigree shows at a glance that the dams bred at Kinellar, Collynie and Pirriesmill, and the sires used by such renowned breeders, that it has the Hall Mark of Shorthorn aristocracy that places it at the forefront of Pure Scotch Pedigrees.

PROUD CONQUEROR (144616) belongs to the Kilblean Beauty family and has sired many prominent calves at Collynie. Sire Proud Clarion (122203), dam Craibstone Beauty 3rd by Prince of the Vale (77501), g. dam Craibstone Beauty 2nd by Craibstone (66885).

COLLYNIE ROYAL AUGUSTA belongs to a family which requires no comment in North America, being appreciated wherever Shorthorns are known as one of the best produced by J. Bruce. This heifer is a good red, and although very young, should develop into a cow of great value.

The Broadhooks family is so well known for its general excellence, both as the producers of sires of a standard fit to use in the very best herd, and dams to retain the breed from, even by the most critical breeders, that any detail on their merit would be next to superfluous.

The high standard of this fine old Cruickshank family has been well maintained in all its wealth of fleshing qualities and beauty of symmetry by the high standards of sires used in the Beaufort and Rosehaugh herds since it left Sittyton.

CUDHAM PRESIDENT (148272) a well bred Cruickshank "Clipper" by the good breeding bull Golden Charm (136750), dam Sittyton Clipper 6th by Primrose Archer (106551), g. dam Crystalate by Newton Crystal (92658).

GOLDEN SITTYTON (106543) was a bull of outstanding merit and has sired many first-class animals. He came of the famous Sittyton Violets, and was sired by the Duthie stock bull Royal Review (100473), which was sired by the Uppermill bull Royal Edward (82153) by Wanderer (60138) by Dauntless (54155) by William of Orange (50694), etc., each a household word as great breeding sires.

SOLID SILVER (87419), one of the Pirriesmill finely bred Sittyton Secrets, after the Duthie bred Sittyton Champion (82349). He has a line of most illustrious ancestors, such as Vice Chancellor (56681), Roan Gauntlet (35284), Pride of the Isles (35072), and most of the sires that made the Sittyton herd.
